## **EMPLOYMENT HISTORY**

---

### *KNPW Lawyers (Law Firm)*

December 2000 – February 2001 and December 2001 – February 2002

As an internship, my responsibilities were to deliver urgent messages and documents timely, to confirm information with other firms through telecommunication devices, to bank cheques and to file information systematically. In addition, I accompanied the lawyers to attend different courts in Sydney and to settle transactions. I also conducted legal research on behalf of KNPW. During these periods, I learnt about the basic principles of contract law and standard procedures of a settlement. I believe that these experiences have allowed me to understand the profession with greater depth.

### *PRIVATE TUTOR*

December 2001 – February 2002 and December 2003 – February 2004

My jobs as a music tutor and a criminal law tutor have allowed me to experience the difficulties of operating and maintaining a small business. It has enhanced my communication skills and marketing skills, as the success of an advertising campaign had a direct influence on the number of potential students I had.
